Topic: Proposed Amendments on Implementation of the Electric Retail Aggregation Program

Proposed Classification of Amendments (please tick the box):

☒ General ☐ Minor ☐ Urgent

If Urgent, reason for urgency:

III. SUMMARY OF THE PROPOSED RULES CHANGE

Amendments to the WESM Rules, Retail Rules and various Market Manuals are proposed to harmonize existing rules with the issuances¹ on the implementation of the Electric Retail Aggregation Program.

IV. BACKGROUND

Pursuant to Section 31 and 43 of Republic Act No. 9136, or the Electric Power Industry Reform Act (EPIRA), and its Implementing Rules and Regulations, the ERC is mandated to implement the Retail Competition and Open Access (RCOA) allowing electricity end-users with at least the threshold level of monthly average peak demand to be in the contestable market. The EPIRA envisions that the threshold level for the contestable market shall be gradually reduced and, eventually, reach household demand level. With this, aggregators shall be allowed to supply electricity to end-users whose aggregate demand within a contiguous area meet the threshold.

The ERC Resolution No. 04, Series of 2022 designates the Central Registration Body to undertake the required processes, information technology, and other systems capable of handling customer switching and information exchange among retail electricity market participants.

The Retail Aggregation Program is conceptually similar to the RCOA that was already established through various issuances of the DOE and ERC as both are mechanisms for end-users to gain access to competitive supply.

V. THE PROPOSED RULES CHANGE

The proposed rules change aims to harmonize existing rules on retail transactions with the policies and regulations issued with respect to the implementation of the Retail Aggregation Program.

¹ ERC Resolution No. 4 Series of 2022 Rules for the Electric Retail Aggregation Program
Template version: 13 March 2020

The proposed rules change also intends to clarify procedures that will be applicable to Retail Aggregation participants for procedures not explicitly stated in ERC Resolution No. 04, Series of 2022. In relation to this, IEMOP has already sought clarification from ERC on various implementation matters through a letter dated 17 August 2022 and is awaiting ERC's response on the said letter.

The following is the summary of the proposed amendments to the WESM Rules, Retail Rules and relevant Market Manuals:

1. Updated the definition of "Supplier" to include Retail Aggregators
2. Updated the definition of "Retail Customers" to include Aggregated Group
3. Defined requirements for registration of new and registered entities wishing to participate in Retail Aggregation
4. Excluded Aggregated Members from Network Service Providers' submission of customer information with respect to end-users qualified to be Retail Customers
5. Applied same conditions, timeline and procedures for switching for Contestable Customers to Aggregated Groups
6. Specified procedures for opt-out procedures for Aggregated Members
7. Designation of a virtual metering installation as primary source of metering data for Aggregated Groups
8. Specified guidelines for aggregation of metering data to be complied with by the Retail Metering Services Providers

VI. BACKGROUND AND DESCRIPTION OF THE PROPONENT

The proponent is the Independent Electricity Market Operator of the Philippines Inc. (IEMOP), the independent market operator of the WESM.

Top Officers:

Richard J. Nethercott – President and CEO

Robinson P. Descanzo – Chief Operating Officer

Sheryll M. Dy – OIC-Head of Legal Department

Template version: 13 March 2020

Isidro E. Cacho, Jr. – Head of Corporate Strategy and Communications
Salvador D. Subaran – Head of Information Systems and Technology
Arthur P. Pintado – Internal Audit Head

VII. CONCLUSIONS AND RECOMMENDATIONS

Amendments to the WESM Rules and various Market Manuals are proposed to align procedures with the policies and regulations on the implementation of the Electric Retail Aggregation Program, namely ERC Resolution No. 084, Series of 2022. It is recommended that the proposed amendments be adopted.

IX. Proposed General Amendments to the WESM Rules, Retail Rules and Market Manuals on the Implementation of the Electric Retail Aggregation Program

A. WESM Rules

WESM Rules								
Title	Section	Provision (in reference to current published version including pending revision pursuant to RCC-RESO-22-07)	Proposed Amendment (in red)	Rationale	Comment	Proposed Re-wording based on Comment	Proponent's Response	RCC Agreement
<p><i>Please write general comments here, if any.</i></p> <ul style="list-style-type: none">- The definition for “Contestable Customer” between WESM Rules (existing) and WESM Registration Manual (proposed) are slightly different. We recommend adopting the proposed definition and place it in the WESM Rules only. Defining said term in the WESM Registration Manual is not necessary since it is already in the WESM Rules.- Requesting IEMOP to provide update regarding their request for clarification with ERC on implementation matters (as stated in the discussion paper)- Will the proposal entail enhancements to the CRSS? If so, please provide information on the necessary changes, funding requirement, current status, and target completion.								
GLOSSARY	Chapter 11	<u>Retail Customer – An electricity end-user that is qualified to contract electricity supply from Suppliers in accordance with qualifications issued by the ERC. For avoidance of doubt, this shall refer to Contestable Customers that are allowed to participate in the Retail Competition Open Access as prescribed in the Act</u>	<u>Retail Customer – An electricity end-user that is qualified to contract electricity supply from Suppliers in accordance with qualifications issued by the ERC either in the capacity of a Contestable Customer, GEOP End-User or an Aggregated Group as prescribed in Republic Act No. 9513. For clarity, the term “Retail</u>	To harmonize definition of terminologies between WESM Rules and Retail Rules

Please write general comments here, if any.								
Definition of Terms	1.3.2	(new)	<u>Virtual Metering Installation. A non-physical metering installation, which represents the aggregate meter data from physical metering installations of Aggregated Members belonging to an Aggregated Group, duly registered with the Central Registration Body.</u>	To define Virtual Metering Installation consistent with provisions of Article VI, Section 7 and 8 of ERC Reso. No, 04, S. of 2022	The term should be defined in the Retail Rules since it is already used under Clause 4.3.4.2 of the said rules. Thus, defining this in this Manual is no longer necessary.	Virtual Metering Installation. A non-physical metering installation, which represents the aggregate meter data from physical metering installations of Aggregated Members belonging to an Aggregated Group, duly registered with the Central Registration Body.		
Coverage	2.1	This section defines the <i>metering installation</i> standards that a Contestable <u>Retail</u> Customer meter installation must comply with to be eligible for registration in the <i>Wholesale</i>	This section defines the <i>metering installation</i> standards that a Contestable <u>Retail</u> Customer meter installation must comply with to be eligible for registration in the <i>Wholesale Electricity Spot Market</i> .	To clarify that metering installations referred herein refer to those installed at the Aggregated Member but virtual metering installation refers to point of reference for settlement quantity of
