

**INDEPENDENT**

**FORTUNATO C. LEYNES**

Educational Background

- Executive Master's in Business Administration  
Asian Institute of Management
- Master's in Science in Electrical Engineering  
University of the Philippines
- Bachelor of Science in Electrical Engineering  
University of Santo Tomas

Mr. Leynes has an extensive – over 39 years – experience in all sectors of the electric power industry covering generation, transmission, distribution, and supply.

He has been presented with numerous awards and accolades, both local and international, for his work in the electric power industry. Perhaps the most notable of these are the 2014 Outstanding Electrical Engineer of the Philippines from the Philippine Professional Regulation Commission and the 2015 Excellence Award for Publication and Rating in Nigeria. He was also recognized by his alma mater, University of Santo Tomas, in 2018 with the Thomasian Engineer Hall of Fame Award.

Mr. Leynes has a passion for the academe and has been sharing his knowledge and expertise with Engineering students from his beloved alma mater, the Mapua Institute of Technology, Far Eastern University, and the MERALCO Power Academy.

Mr. Leynes is a member of the Technical Committee, one of the WESM Governance Committees.
