

17 May 2024

REM Advisory Number : **REM-2024-03**

Subject : Issuance of New Digital Certificate for the Philippine Renewable Energy Market System (PREMS)

Dear **RE Market Participants**:

Further to our Advisory dated 9 May 2024, please be informed that the PREMS switchover to its Disaster Recovery Site was successfully completed.

As part of the activities for switchback to the new location of the PREMS Main Site located at Cyberpod Five, Eton Centris, Diliman, Quezon City, the following activities will be conducted:

1. The PREMS will be connected to the new network provider and switched back to the new Main Site on 24 May 2024 at 1900H after which the PREMS will be accessible only upon the completion of switchback activities. Such completion shall be announced via another email advisory.
2. Upon switchback, WESM Participants who have MMS and CRSS Digital Certificates may access the PREMS using the same digital certificates via <https://prems-main.iemop.ph>.
3. If you do not have an existing MMS or CRSS credential, you will be provided with a new Digital Certificate starting 20 May 2024 which will allow access to the PREMS via IEMOP's network. Upon receipt of the instructions via a separate email, kindly follow the step-by-step process indicated in the attached Guide on How to Use and Access the PREMS User Interface via Digital Certificate. RE Market Participants are advised to complete this process to access the PREMS.

Pending formal transfer of the RER functions to IEMOP, PEMC will continue maintaining and operating the PREMS from its new Main Site.

Rest assured that, PEMC and IEMOP are committed to ensure the continued protection and confidentiality of all data and information of REM Participants.

Should you have questions or concerns regarding this activity, please send an email to [reregistrar@wesm.ph](mailto:reregistrar@wesm.ph) and [tod.rss@iemop.ph](mailto:tod.rss@iemop.ph).

Thank you.

For the RE Registrar,

ELVIN HAYES E. NIDEA  
President
