⁵ Reporting period covers the billing months 26 February – 25 May 2024 (for Quarter Highlights) and 26 August 2023 – 25 May 2024 (for YTD) for subcategories Timeliness of Preliminary and Final Settlement Statements, Accuracy of Preliminary/Final Settlement Calculations, Frequency of Adjustments to Final Settlement Statements, Timeliness of Margin Call and Timeliness of Default Notice.

⁶ The one-day delay in issuance of settlement statements during the April 2024 billing month is due to the Market Operator’s conduct of extensive price validation and market re-runs to ensure accuracy of settlement prices. This was a result of the unprecedented increase of trading intervals affected by imposition of Secondary Price Cap (SPC) and Price Substitution Methodology (PSM), which is beyond the usual range processed for each billing month, prompted by the substantial increase of yellow and red alert notices by the System Operator
