

# Annual Report on Performance of Metering Service Providers

26 December 2023 to 25 December 2024

**FEBRUARY 2025**

This Report is prepared by the  
Philippine Electricity Market Corporation –  
Market Assessment Group

Document Information Classification: Public

The information contained in this document is based on data that are subject to continuous verification by the Philippine Electricity Market Corporation (PEMC). The same information is subject to change as updated figures come in.

## 1.0 A GLIMPSE INTO METERING SERVICES PROVIDER

A Metering Services Provider (MSP) is a person, or an entity authorized by the Energy Regulatory Commission (ERC) to provide metering services. The MSPs are registered as Wholesale Electricity Spot Market (WESM) member in the Wholesale and Retail Electricity Market<sup>1</sup> and are mandated to ensure metering installations are provided, installed, tested, calibrated, and maintained as well as to ensure that the accuracy of each metering installations complies with the requirements of the WESM Rules, the Philippine Grid Code, and Philippine Distribution Code.

Moreover, if the Market Operator requires, the MSP shall arrange for the provision of remote monitoring facilities to alert the Market Operator of any failure in any component of the metering installation, which might affect the accuracy of the metering data derived from that metering installation<sup>2</sup>.

Further details on MSP responsibilities are provided under the WESM Manual on Metering Standards and Procedures Issue 16 and Retail Manual on Metering Standards and Procedures Issue 7.

The commercial operations of Retail Competition and Open Access (RCOA) in Mindanao commenced on 26 March 2024, in line with the Department of Energy Circular Department Circular DC 2024-03-0009<sup>3</sup>. This significant milestone marks the beginning of a more competitive electricity market in the region. As a result, Distribution Utilities (DUs) and Electric Cooperatives (ECs) in Mindanao that serve as the default MSPs for Contestable Customers within their franchise have now been registered as retail MSPs (RMSPs), aligning with the new regulatory framework. This transition is expected to foster greater market efficiency and provide consumers with more choices and competitive pricing in the electricity market.

As of 25 December 2024, there were 95 registered MSPs in the WESM, which includes the following new registered MSPs since January 2024:

<b>MSP Name</b>	<b>Region</b>	<b>Registration Date</b>
Northern Samar Electric Cooperative, Inc. (NORSAMMSP)	Visayas	09 January 2024
Cotabato Electric Cooperative, Inc. (COTELCMSP)	Mindanao	12 January 2024
Davao Light and Power Company, Inc. (DLPCMSP)	Mindanao	11 May 2024
Davao del Sur Electric Cooperative, Inc. (DASURMSP)	Mindanao	17 May 2024
First Industrial Township Utilities, Inc. (FITUIMSP)	Luzon	18 May 2024
Consort Land, Inc. (CNSORTMSP)	Luzon	14 June 2024
Lanao del Norte Electric Cooperative Inc. (LANECOMSP)	Mindanao	26 June 2024
First Laguna Electric Cooperative, Inc. (FLECOMSP)	Luzon	12 August 2024

Some MSPs have no customers yet, thus only 81 registered MSPs, i.e., 75 RMSPs<sup>4</sup> and 6 wholesale MSPs (WMSPs) were evaluated for performance during the review period.

## WHOLESALE MSP

### National Grid Corporation of the Philippines (NGCPMSP)

#### Mindanao - Electric Cooperatives

1. Bukidnon Second Electric Cooperative, Inc. (BUSECOMSP)
2. Cotabato Electric Cooperative, Inc. (COTELCMSP)<sup>12</sup>
3. Lanao del Norte Electric Cooperative Inc. (LANECOMSP)<sup>13</sup>
4. Cotabato Electric Cooperative, Inc. - PPALMA (PPALMAMSP)
5. South Cotabato I Electric Cooperative, Inc. (SCTCO1MSP)

The evaluated WMSPs include NGCPMSP, and five (5) Mindanao MSPs, which are all ECs and serving embedded generators within their franchise area.

In the 2023 Annual MSP Performance report, there were 10 MSPs in Mindanao registered as Wholesale MSPs (WMSPs). This year, seven (7) of those 10 WMSPs registered as RMSPs, while the remaining three (3) maintained their registration status as WMSPs as they continue to solely serve embedded generators (EGs) within their franchise area.

The table below provides further details on the registration and changes in registration of Mindanao MSPs:

MSP	Registration Date	Remarks
CEPALCMSP	08 April 2024	
DANECOMSP	05 October 2024	
FIBECOMSP	16 October 2024	Registered as RMSP
MILPIMSP	23 July 2024

### 4.0 MSP PERFORMANCE ASSESSMENT

#### A. Performance rating by region and type

##### Service delivery for Retail MSP

Please note that only 68 RMSPs are considered in this section, as the aforementioned seven (7) WMSPs registered as RMSPs following the commercial operations of RCOA in Mindanao on 26 March 2024. Of these 68 RMSPs, only 38 received a passing overall rating, which is about 56%.

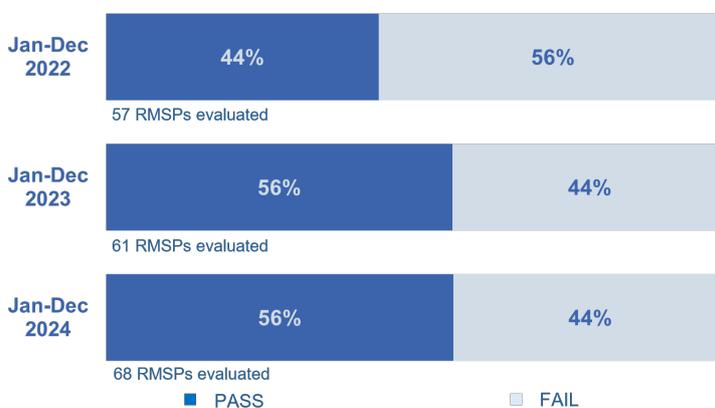

Figure 1: Annual overall performance ratings of RMSPs

<sup>14</sup> Customer Satisfaction Survey rating is excluded in computation for overall rating of RMSPs. Passing rating is 85%.

These 38 RMSPs and their corresponding annual overall performance ratings are listed in the table below. Of 24 Luzon RMSPs with passing overall rating, 10 are PDUs while 14 are ECs. For the 13 Visayas RMSPs with passing overall rating, six (6) are PDUs while seven (7) are ECs. Meanwhile, the Mindanao RMSP with passing overall rating is a PDU.

### **Service delivery for Wholesale MSP**

Figure 2 below shows the overall performance rating of WMSPs in Mindanao, which includes two (2) newly registered WMSPs in 2024.

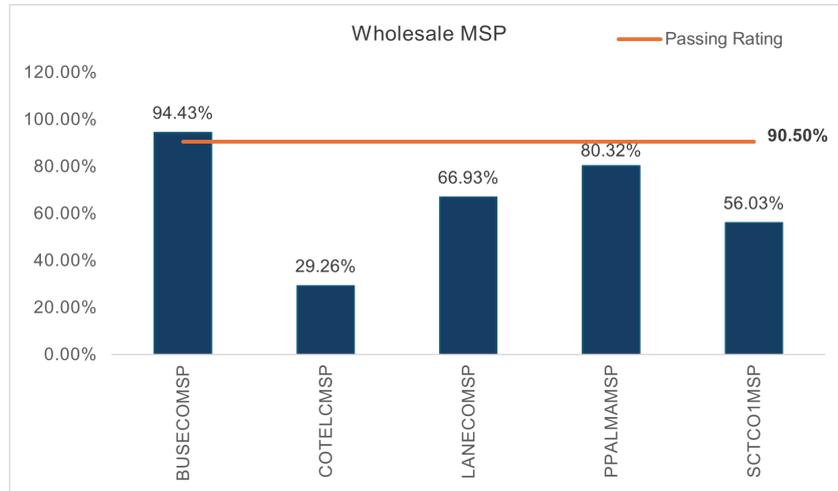

Figure 2: Annual overall performance rating of WMSPs in Mindanao

Meanwhile, NGCPMSPs’ average overall ratings per region are above the passing rate of 94.5% (for Luzon-Visayas) and 90.5% (for Mindanao) as shown in Figure 3 below.

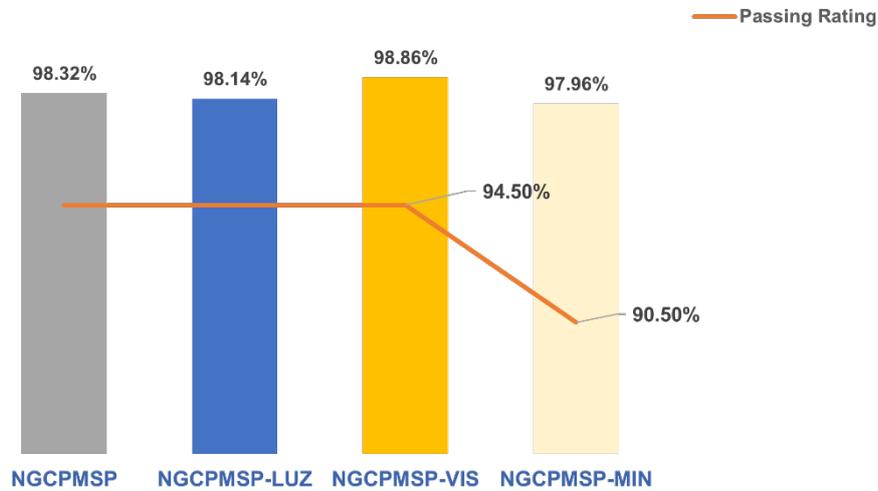

Figure 3: Annual overall performance rating of NGCPMSP

**Service delivery for Mindanao (Registered as RMSP)**

For the seven (7) WMSPs registered as RMSPs, Figures 4 and 5 below show their average overall ratings as both WMSP and RMSP.

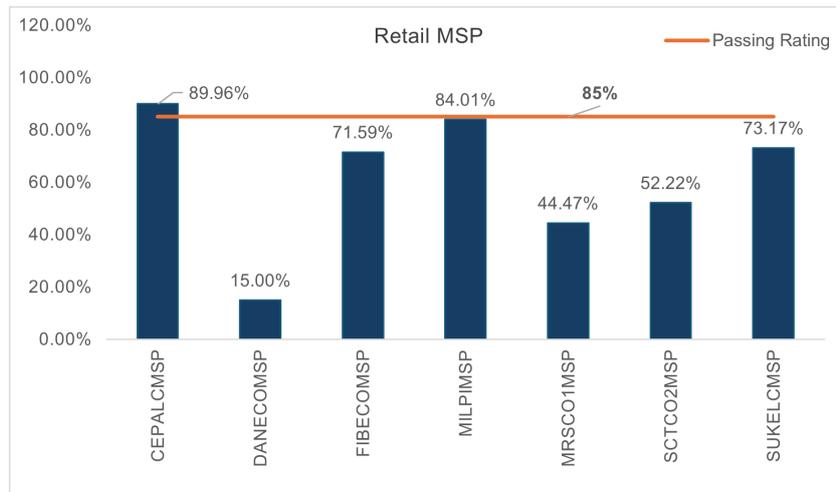

Figure 4: Rating as RMSP

## B. Performance rating by criterion

In 2024, the percentage of evaluated RMSPs with passing ratings in criteria B, D, and E increased compared to the previous year. For Criterion C, the percentage remained the same, while that for Criterion A decreased.

Consistent with the previous reports, Criterion D remained relatively high as it is used for settlement, which incentivizes the MSPs to submit the monthly meter data to the Market Operator.

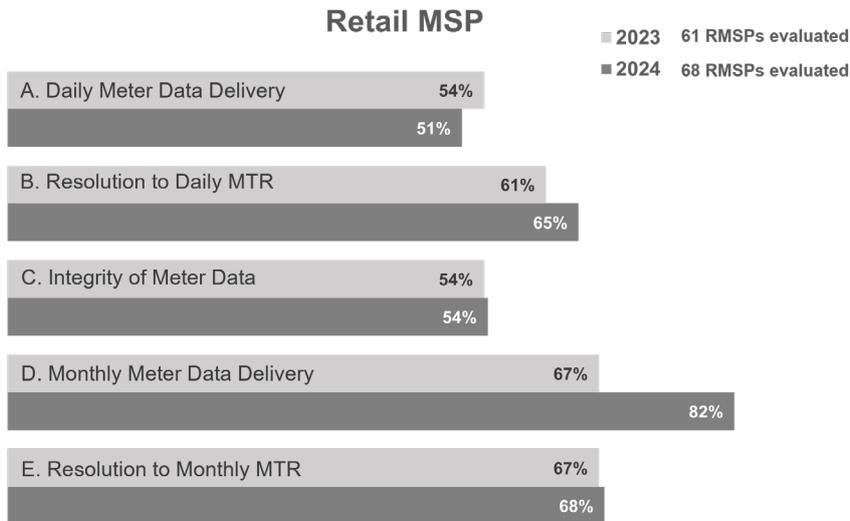

Figure 6: Annual overall rating of RMSPs per criteria

Note: WMSPs in Mindanao registered as RMSP were not included in the analysis

For the details of 2024 MSP Annual performance ratings, please see Annexes A and B of this report.

### C. Performance rating monthly and yearly trend

Based on monthly performance monitoring, the trend of MSPs' performance varies. The drops in June and December 2024 were attributable to the low percentage of MSPs passing Criteria A *Daily Meter Data Delivery*. Meanwhile, the percentage of evaluated MSPs achieving a passing overall rating peaked in November 2024 at 61%.

On the other hand, since the annual overall rating is computed as the average over a 12-month period, some MSPs still achieved a passing annual rating even if they did not pass some of the monthly performance evaluation.

Figure 7: Monthly performance rating of MSPs

In terms of yearly trend, the percentage of evaluated MSPs with passing overall rating slightly decreased from 53% in the year 2023 to 52% this year. Despite this decrease, there is still a significant increase in the passing overall rating compared to the years 2018 – 2022.

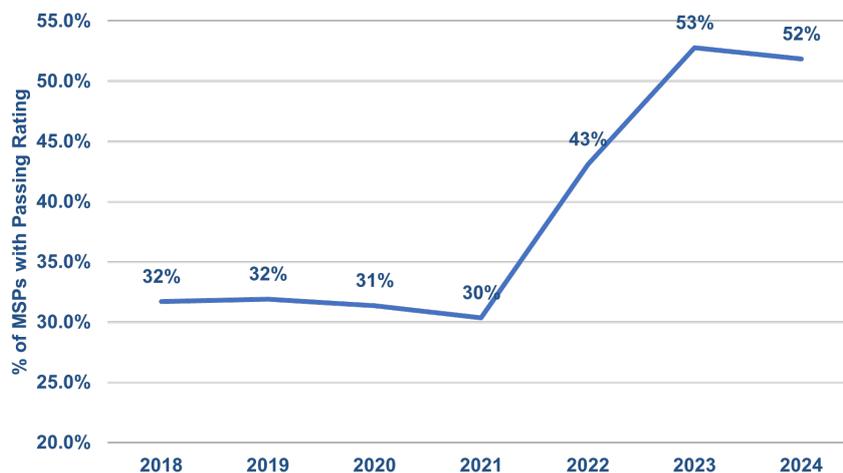

Figure 8: Yearly passing trend of MSPs

Over the 7-year period, there were 12 MSPs that have consistently gained performance ratings that were equal to or beyond the overall passing rating. These 12 MSPs are as follows: BEZMSP, BTLC2MSP, CELCORMSP, ILECO2MSP, MALVEZMSP, MECMSP, MEZMSP, MRLCOMSP, NEEC21MSP, NEECOMSP, NGCPMSP, and PELCO1MSP.

The average annual overall performance rating of each MSP for the years 2018 to 2024 is provided in Annex C of this Report.

#### D. Customer Satisfaction

PEMC conducted Semi-Annual Customer Satisfaction surveys for the billing months of January to June 2024 and July to December 2024. Survey forms were sent to registered Market Participants on 01 July 2024 and 06 January 2025, respectively.

Out of 81 MSPs evaluated for performance, only 18 MSPs received Customer Satisfaction Ratings from 93 respondents.

All MSPs listed in the table below passed the evaluation based on the 90% passing customer satisfaction rating. However, the total number of respondents was significantly low for most of MSPs relative to their total customer base, which may limit the representativeness of the survey result. On the other hand, CELCORMSP, ISLCO1MSP, and PNLCO3MSP had high response rates, making their survey results more representative of their customers' satisfaction level.

MSP Name	CS Rating	No. of Respondents per MSP		No. of Customers per MSP
		Jan to Jun 2024	Jul to Dec 2024	
NGCPMSP	95.42	16	10	1,470

VECOMSP	95.92	3		203

## 5.0 SUMMARY OF OBSERVATIONS

The MSP performance, in terms of service delivery, has shown continuous improvement, as evidenced by the increasing number of MSPs with passing overall rating. This trend reflects growing maturity in their operations and adherence to the Rules.

The MSP performance in terms of customer satisfaction has shown a slight improvement in terms of the response rate from customers this year. While challenges remain due to the low number of responses, the PEM Audit Committee continued its engagement with the Retail Electricity Suppliers (RES) to help disseminate the survey forms.

Following the start of RCOA in Mindanao on 26 March 2024, several DUs and ECs in Mindanao, which serve as the default MSPs for Contestable Customers within their franchise areas, have registered as RMSPs. The remaining three (3) MSPs in Mindanao retained their registration status as wholesale MSPs as they continue to solely serve embedded generators within their franchise area.
