## Description

---

The investigation procedures are based on the existing provisions of the Market Surveillance Compliance and Enforcement Market Manual (MSCEMM) and internal business procedures of ECO. These require, among others, the following –

- Transmittal by ECO of the Preliminary Notice of Investigation (PNI) to the Trading Participants
- Submission by the Trading Participants of Replies and Supporting Documents to ECO in response to the PNI
- Transmittal by ECO of Request for Additional Information or Clarificatory Questions
- Submission by the Trading Participants of Supplemental Replies and Supporting Documents
- Transmittal by ECO of the Investigation Reports to the Trading Participants

The forms relating to the above activities of ECO and trading participants are accomplished in **printed and electronic copies** and are being sent either by personal service or courier.

For convenience, practicality, and promotion of **paperless exchanges and communication**, the ECO seeks to adopt a more convenient way to facilitate the receiving and sending of documents relating to investigation to and from trading participants.

Upon effectivity of this Guidelines, all submissions, *except affidavits*, should be **in electronic copies** and should be sent via File Transfer Protocol (FTP) facility.

This issue of WESM Compliance Bulletin provides for guidelines on:

- Documents to be used in investigation
- Facility for submission of documents
- Format and filenames
- Coordination

The documents referred to do not include the market data or reports from the Market Operator and System Operator. These are governed by separate protocol on data provision.

## Objectives

---

For WESM Participants –

- To be guided on the type of documents that may be submitted relating to investigation
- To be guided on how to secure Log-In Credentials for the PEMC File Transfer Protocol (FTP) facility
- To be able to respond to the notice of investigation in a more convenient way.

## 1.9. Obligation to Inform the Parties About the Transmittal of Forms

While a paperless exchange of documents and forms is adopted for the foregoing purposes, PEMC-ECO and the Trading Participants should inform one another ***through email*** that a document or sets of documents have been sent via FTP. This is to ensure that no investigation-related documents are overlooked or unnoticed especially that parties are expected to act upon any notice, request, or response submitted within a reasonable period of time.

## 1.10. Coordination

1.10.1. The assigned ECO personnel will get in touch with the representatives of the Trading Participants to clarify any submissions or to follow-up the submission to ensure that responses or replies to PNI will be considered in the investigation.

1.10.2. For this purpose, the **CMA Contact Persons** as nominated by the concerned WESM Compliance Officers (WCOs) and registered in PEMC-ECO will be the ECO's point person for telephone calls from time to time.

1.10.3. As stated in ECO's previous advisory, the CMA Contact Persons are those responsible for answering and submitting the reply and supporting documents via FTP. The WCO may or may not be the CMA Contact Person, depending on the preference of the Trading Participant.

## 1.11. Effectivity
